**Big Winners**

***Construction User of Year – Tampa International Airport***

Associated Builders and Contractors honored the Tampa International Airport with their Construction User of the Year Award. From 2015-2017, Tampa International Airport’s economic impact on the commercial construction industry was estimated at over \$1 billion. Airport projects includes a 2.6 million-square-foot consolidated rental center near the entrance to the airport, a 1.4-mile automated people mover and an expansion of the Main Terminal. The project has created nearly 9,000 construction-related jobs. The entire airport construction team was on hand to accept this distinguished award. “The airport team appreciates the recognition for Construction User of the Year, and we are thankful for the many ABC contractors in the local area who are doing a great job for us on the \$1B, first phase of our Master Plan,” said TPA Executive Vice President of Facilities and Administration Al Illustrato.

***General Contractor Project of the Year - Moss & Associates (Opal Sands Resort)***

Opal Sands Resort is Clearwater Beach is a 15-story, 460,000 square foot resort hotel with 230 rooms including 39 suites. The Opal Sands was a complex project with its mix of commercial systems and residential systems. Moss had to overcome obstacles including wave-crest, seawall repair and support structure for the pool deck. Moss increased efficiencies of the building layout by using advanced clash detection technology. Moss was able to resolve thousands of construction conflicts prior to the start of construction.

***Sub-Contractor Project of the Year - APG Contractors and Engineers (Raymond James Stadium Renovation)***

APG was brought on to this high-profile project by Manhattan Construction. The project involved unique challenges including a massive scale renovation and difficult construction schedule. At time the project utilized over 30 technicians at a time to meet construction deadlines. APG implemented a safe, logical and well-panned labor distribution which met all milestones and finished the project 10 day early.
